

Solution Requirements

Date	30 June 2026
Team ID	
Project Name	EduGenie – AI Powered Learning Assistant
Maximum Marks	4 Marks

Define Functional and Non-Functional Requirements:

Create a comprehensive list of requirements to define exactly what your solution will do and how well it will perform.

- **Functional Requirements (FR)** define specific behaviors, functions, or features of the system (What the system should *do*).
- **Non-Functional Requirements (NFR)** specify the criteria that judge the operation of a system, rather than specific behaviors (How the system should *be*).

Fill out the descriptions and necessary details for each category provided below.

Step 1: Functional Requirements (FR)

S.No	Requirement Category	Requirement Description	Priority (High/Medium/Low)
1	Authentication	Users can securely access EduGenie through login authentication.	High
2	Authorization levels	Students can access learning modules, quizzes, summaries, and reports.	High
3	External interfaces	The system integrates with Gemini AI API and external libraries for content generation, quiz creation, note summarization, and intelligent learning assistance.	High

4	Transactions processing	Processes user queries and AI responses.	High
5	Reporting	Generates quizzes, summaries, and reports.	High
6	Business rules, etc.	Provides responses based on user requests and learning needs.	Medium
7	Compliance to laws or regulations	Protects user data and privacy.	Medium
8	Other	Supports personalized learning assistance.	Medium

Step 2: Non-Functional Requirements (NFR)

S.No	NFR Category	Requirement Description	Target Metric / Acceptance Criteria
------	--------------	-------------------------	-------------------------------------

1	Performance & Speed	Provides fast AI responses.	Response within 3 seconds.
2	Scalability	Supports multiple users simultaneously.	Supports 1000+ users.
3	Security & Data Privacy	Protects user data securely.	Secure data encryption.

4	Reliability & Availability	The system remains available and stable.	99% uptime.
5	Usability & Accessibility	Easy and user-friendly interface.	Accessible on desktop and mobile.
6	Other	Easy maintenance and future upgrades.	Supports modular updates.
